## Environmentally Preferable Purchasing Policy

Jasper Group recognizes that our purchasing decisions can create a positive environmental impact. It is the intent of Jasper Group to integrate environmental considerations into every aspect of acquisition, while maintaining social and economic balance.

Jasper Group Purchasing Managers actively seek to reduce the environmental damages associated with the acquisition of product, components, and raw materials. By increasing partnerships with environmentally preferable vendors, products, and services, (to the extent feasible, consistent with price, performance, availability, and safety), Jasper Group continues our commitment of attaining sustainable partners throughout product and life cycle management.

- Environmental factors will be considered early in the acquisition planning and decision process.
- Responsibility for environmentally preferable purchasing is shared among all purchasing agents.
- Environmentally preferable purchasing is one component of sustainability.

Approved this 10<sup>th</sup> day of February, 2014
