

## Fabric Information

### Standard Textile Offering

Our standard textile offering is located on pages 12-16 of this price list.

### Additional Textile Programs

In addition to our standard offering, the entire Maharam, Momentum, CF Stinson, Mayer Fabrics, and ArcCom collections are available. Please specify if Community is to order the fabric. Samples are available, contact Community customer service. All restrictions apply.

### COM/COL Textiles

COM pricing is the same as Grade B pricing. COL pricing is the same as Grade D pricing. All yardage requirements listed in the price list are based upon 54" plain material. Additional yardage will be required for repeats or fabric less than 54" wide. The fabric table below will give you approximate additional yardage requirements. All stripes will be applied front to back unless specified otherwise. Patterned fabrics will be applied at our discretion unless special instructions are included with the order. The COM/COL yardage requirement listed is for one chair. Yardage requirements may be reduced when ordering multiple quantities. Please call Community customer service for yardage requirements on multiple quantities. We cannot assume responsibility for the receipt of defective COM/COL or for the tailoring quality of some fabric. Some fabrics, due to their bulkiness or thinness may not tailor well.

Fabric Width	Plain Fabric	Napped Fabric	2-10" Repeat	11-19" Repeat	20-25" Repeat	26-30" Repeat

## Fabric Information

### Cut Yardage

Community can order textile cut yardage from many textile companies. Refer to the following table for prices. Pricing for orders with textiles \$88 per yard or under only. For pricing on textiles over \$88, please contact customer service.

Fabric Grade	B	C	D	E	F	G	L	M
List Price/Yard	\$32	\$48	\$73	\$108	\$145	\$186	\$236	\$286
Leather Grade	L							
List Price/Square Foot	\$15							

### Fire Retardency

All Community products are manufactured to comply with California Bureau of Home Furnishings Technical Bulletin 117 as a minimum standard. Compliance with more stringent codes requires special manufacturing considerations and upcharges.

### California Technical Bulletin 133

Community uses a barrier material between the foam cushioning and the upholstery cover in order to comply with California TB 133. The standard upcharge on products specified to comply with TB 133 is \$44 list per yard of fabric. Some product designs and fabrics cannot be combined to comply with California TB 133. Because of this, we reserve the right to reject any request for an upholstery cover, including COM, or product style that we feel may compromise the integrity or safety of a product specified to comply with TB 133. Community has tested representative styles for compliance of California TB 133. If you require laboratory certification that a specific product and upholstery combination will pass TB 133, the following charges will apply: testing, video, and transportation charges, \$429 list plus cost of sample (allow an additional six weeks over the standard lead time for testing. For products not requiring certification, our standard lead time will apply).
